

Group Healthcare Insurance

A healthcare insurance policy gives you and your employees quick access to qualified healthcare and treatment. Invest in your employees' health, reduce the amount of sickness absence and become a more attractive employer.

Insure the whole group

Are there five or more people in your workplace? In that case, the employer can take out a healthcare insurance policy for all the employees with no health declaration. People who are currently ill, but well enough to work, also get access to care.

The following is included in Healthcare insurance Basic

- planned medical care, from examination to treatment/operation
- unlimited treatment period – care until you are well
- access to specialists
- treatment guarantee
- coverage for you healthcare costs – no amount limit
- day surgery and hospitalization
- rehabilitation
- second opinion – get examined by a second specialist in case of serious illness
- cancer treatment and crisis support
- dietician
- patient fees and prescription drugs

Healthcare insurance Plus

In addition to everything that is included in Basic, you also get coverage for physiotherapist, chiropractor and/or naprapath - up to 24 treatments per calendar year.

Healthcare insurance Top

In addition to everything that is included in Basic and Plus, you also get coverage for psychological assistance and personal support.

With or without qualifying period

The insurance can be taken out with or without qualifying period. The qualifying period means that previous conditions are only covered by the insurance once you have been free of treatment and symptoms for 24 months.

Excess for medical treatment

If you choose to add excess, this is SEK 750 or SEK 1500 per claim at the first doctor's visit.

How much does it cost? (SEK)
