

Group Healthcare Insurance

A healthcare insurance policy gives you and your employees quick access to qualified healthcare and treatment. Invest in your employees' health, reduce the amount of sickness absence and become a more attractive employer.

Insure the whole group

Are there five or more people in your workplace? In that case, the employer can take out a healthcare insurance policy for all the employees with no health declaration. People who are currently ill, but well enough to work, also get access to care.

The following is included in Healthcare Plus

- medical care, from examination to treatment
- unlimited treatment period
- access to specialists
- day surgery and hospitalisation
- coverage for you healthcare costs – no amount limit
- rehabilitation
- physiotherapist, chiropractor and/or naprapath
- cancer treatment
- second opinion
- crisis support
- treatment guarantee

Healthcare insurance Top

The Top policy also includes psychological assistance, both as treatment with a psychologist and counselling over the telephone.

With or without referral

The insurance can be taken out with or without referral requirement. A referral requirement means that the insurance only becomes applicable once the treating physician in the primary care system has written a referral for continued treatment. Without a referral requirement, the insurance is valid right away.

With or without qualifying period

The insurance can be taken out with or without qualifying period. The qualifying period means that previous conditions are only covered by the insurance once you have been free of treatment and symptoms for 24 months.

How much does it cost (SEK)?

Price per month	Plus	Top
With referral	300 kr	370 kr
No referral without excess	530 kr	600 kr
No referral with excess 500 kr	400 kr	470 kr
No referral with excess 1000 kr	330 kr	400kr

With a 24-month qualifying period, both Top and Plus costs 100 kr less per month and employee.
