

Healthcare Insurance

For companies and individuals

Quick access to care the day you need it

Unfortunately, you cannot insure against illness. What we here at DKV Hälsa can do, however, is to make sure that you do not have to risk long waiting periods in the public health service. Instead, we give you quick and easy access to private health services. Simply call Helpline for advice from a licenced nurse who can help you make an appointment with the right doctor/healthcare provider.

The following is included in Healthcare Basic

- planned medical care, from examination to treatment/operation
- unlimited treatment period – care until you are cured
- access to specialists
- treatment guarantee
- coverage for you healthcare costs – no amount limit
- day surgery and hospitalisation
- rehabilitation
- second opinion – get examined by a second specialist in case of serious illness
- cancer treatment
- crisis support
- the insurance can be kept for life

Healthcare insurance Plus

In addition to everything that is included in Basic, you also get coverage for physiotherapist, chiropractor and/or naprapath, up to 24 treatments per calendar year.

Healthcare insurance Top

In addition to everything that is included in Basic and Plus, you also get coverage for psychological assistance and personal support.

With or without referral

The insurance can be taken out with or without referral requirement. A referral requirement means that the insurance only becomes applicable once the treating physician in the primary care system has written a referral for continued treatment. Without a referral requirement, the insurance is valid right away.

Excess for medical treatment

If you choose to add excess, this is 500 or 1000 SEK per claim at the first doctor's visit.

Advantages for both companies and individuals

For a company, Healthcare Insurance is a way to increase their employees' security. It also reduces loss of production and the company becomes more attractive as an employer. As a private individual, you get the right care at the right time, reducing the time on sickness leave.

Network of private specialists and private hospitals

We have an extensive network and work with more than 1,000 specialists. In order to cover all types of medical and surgical treatment, we have agreements with private hospitals in the Nordic countries and in the rest of Europe. Thanks to our collaboration with Best Care, we also have access to some of Germany's most qualified experts on cardiovascular diseases and cancer treatment.

Who can take out the insurance?

- companies and private individuals
- persons residing in a Nordic country and registered with a Nordic social insurance office.
- the healthcare insurance can be taken out for individuals between the ages of 0 and 66 years.

How do I take out an insurance policy?

The insurance is taken out by submitting an individual application along with a health declaration. For companies with five or more employees, we also offer a group insurance policy.

The insurance is transferable

You can transfer the insurance to a company or a private policyholder without submitting a new health declaration.
